

PROCESS GROUP

C5

DESIGN ■ ENGINEERING ■ FABRICATION

THE C5 DIFFERENCE

SKILLS

- 100 combined years of experience in the Oil and Gas processing industry
- We tailor our designs to your needs and implement them into efficient, real-world applications
- A knowledgeable and experienced partner in helping you adapt to new or difficult processes

TECHNOLOGY

- C5PG uses internally developed proprietary sizing and design software, built on years of practical and empirical data and engineering experience
- Powerful tools like BR&E ProMax, Autodesk Inventor, NavisWorks, and AutoCAD Plant 3D
- Time-tested engineering drawings for "off-the-shelf" standards

MANAGEMENT

- From sales to design to fabrication, we provide proven and effective management at all project levels to ensure seamless operation and implementation
- C5PG's clear vision and progressive thinking can help you pursue valuable new technologies and expand into new market opportunities

COST SAVINGS

- We use a flexible manufacturing and fabrication strategy suited to the individual needs and deadline of your project, allowing for best-in-industry pricing and on-time delivery

PRODUCTS/SERVICES

HEATERS

- Water Bath/Dewpoint Heaters
- Salt Bath Heaters/Direct Fired Heaters
- Convection Heaters
- GPU's (Gas Processing Units)

DEHYDRATION AND PROCESSING

- Amine Gas Sweetening
- Glycol Dehydrators
- MRU's (Mechanical Refrigeration Units)
- Gas Scrubbers/Sand Separators
- Filter Separators/Coalescers
- Mol Sieve Dehydration (solid desiccant)
- Fuel Gas Regulation
- Fuel Gas Conditioning Units
- Emission Abatement

LIQUID SEPARATION AND DEHYDRATION

- Two/Three Phase Separators
- Heater Treaters
- Bulk and Test Separators
- Crude Oil/Condensate Stabilizers
- Free Water Knockouts

FIELD SERVICES

- Startup
- Commissioning
- Troubleshooting

... and more

C5PG uses up-to-date industry-standard software, as well as our own proprietary sizing and design software, to propel your project through all stages of development. Powerful tools like [BR&E ProMax](#), [Autodesk Inventor](#), [NavisWorks](#), and [AutoCAD Plant 3D](#) all help our team bring your projects to life.

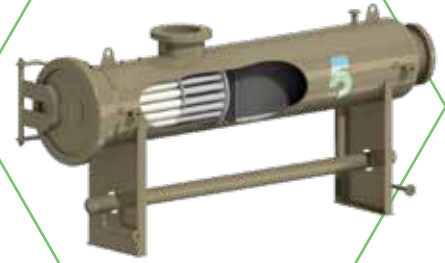

C5PG is dedicated to helping you build for the future, delivering quality solutions to today's oil, gas, petrochemical, and power providers.

Our processing equipment is excellently manufactured to achieve your needs on time and on budget, with best-in-industry pricing. Practical, thoughtful, and sustainable—C5PG is a responsible partner for your ESG goals.
